ABOUT VERTEXPM

Practical support. Clear accountability. Quality from start to finish.

VertexPM Inc. is a Burlington-based construction management, quality and engineering-support company serving Southern Ontario. We support contractors, municipalities, project owners, developers and project teams through project planning, permitting, construction, inspection, testing, documentation and final turnover. VertexPM operates under a PEO Certificate of Authorization.

MISSION & VISION

Our Mission

Our mission is to provide reliable construction management, quality assurance, quality control and engineering support that helps our clients deliver projects in accordance with project requirements. From planning and inspections through testing, documentation and final closeout, we focus on practical solutions, clear accountability and getting the work done right.

Our Vision

Our vision is to build VertexPM into a trusted construction and quality partner across Southern Ontario, known for dependable technical support, strong quality oversight and properly delivered projects. We want to be the team contractors, municipalities, owners and developers can rely on when quality matters.

CORE SERVICES

Clear services. Defined outcomes.

01

Construction Management

Project coordination, reporting, RFI support, action tracking, document control and construction-phase delivery support.

02

Quality Management

CQMPs, ITPs, checklists, audits, NCRs, deficiencies, red-line drawings, as-built records and quality closeout.

03

Building Permit Support

Permit drawings, design coordination, Professional Engineer review, submission support and responses to municipal comments.

CONSTRUCTION-STAGE QUALITY

Inspection, testing and compliance support.

VertexPM helps project teams plan, coordinate, review and track the evidence needed to demonstrate that construction requirements have been met.

01

Inspection Coordination

Inspection planning, hold and witness point tracking, inspection records and deficiency follow-up.

02

Testing Coordination

Testing requirements, laboratory coordination, report tracking, result review and outstanding report follow-up.

03

Records & Compliance

Quality CoC review, material documentation, compliance tracking, red-line drawings and as-built record control.

QUALITY ASSURANCE FOR OWNERS & PUBLIC AGENCIES

Independent quality oversight for municipalities and project owners.

VertexPM supports Cities, public agencies and owners in verifying that specified quality requirements are addressed and that the completed work is supported by clear, traceable quality records.

Owner / Agency QA Oversight

- Quality plan and ITP review
- Contractor QA/QC review
- Inspection and testing oversight
- NCR and deficiency monitoring

Acceptance & Turnover Review

- Test and inspection record review
- Quality CoC review
- As-built and red-line verification
- Final quality package review

SPECIALIZED INSPECTION

Welding and protective coating inspection.

Focused inspection support for steel structures, rehabilitation work and other project-specific requirements.

- Welding inspection
- Weld documentation review
- Visual inspection records
- Protective coating inspection
- Surface preparation checks
- Coating application monitoring
- Dry film thickness checks
- Inspection reporting

OUR APPROACH

From requirement to completion. Nothing disconnected.

01
DEFINE
Confirm scope, requirements, responsibilities and deliverables.

02
PLAN
Set the quality, permit, inspection and documentation strategy.

03
EXECUTE
Coordinate construction, inspections, testing and reporting.

04
CONTROL
Track reports, CoCs, red-lines, NCRs and deficiencies.

05
CLOSE
Complete as-builts, reconcile records and deliver turnover.

CLOSEOUT & TURNOVER

Complete records. Clear status. Controlled turnover.

Documentation Gap Review
Identify missing inspection, testing, material and compliance records before turnover.

Issue Closure
Track NCRs, deficiencies, outstanding reports and unresolved quality documentation.

Final Packages
Reconcile red-lines and as-builts, prepare indexes and organize project turnover packages.

SECTORS

Built for Southern Ontario.

Construction and quality support across infrastructure, municipal, structural, building and rehabilitation projects.

Transportation & Transit

Roads, bridges, transit and transportation construction.

Municipal Infrastructure

Civil, utilities, drainage and public infrastructure.

Buildings

Residential, commercial and institutional projects.

Structural & Concrete

Quality, inspection and technical coordination.

Rehabilitation & Renewal

Repair, retrofit and infrastructure renewal.

Permit Projects

Engineering and building permit support.

CAREERS

Build quality. Build your career.

VertexPM is interested in connecting with construction and quality professionals who value practical project delivery, strong documentation and attention to detail.

QUALITY COORDINATION | CONSTRUCTION INSPECTION | PROJECT COORDINATION | QUALITY DOCUMENTATION | WELDING INSPECTION | COATING INSPECTION
